

# THAMIM ANSARI

## FRONT-END DEVELOPER

Dedicated and motivated frontend developer with a strong foundation in web development technologies. Recently graduated with a Bachelor's degree in Computer Science, and currently in masters specializing in frontend development. Consistently worked in HTML, CSS, JavaScript, and React.js. Passionate about creating user-friendly and visually appealing interfaces. Completed multiple projects during internships, showcasing proficiency in frontend development concepts. Seeking an opportunity to apply my skills and contribute to building innovative web applications.

## EXPERIENCE

### Front-end Developer

**Corvanta Analytics** *May 2022 - Jun 2023*

I have successfully completed my internship as a frontend developer. As a frontend developer, I have gained experience in HTML, CSS, and JavaScript. Throughout the internship, I honed my skills in responsive design. I have gained experience with popular frameworks and libraries such as React.js. My internship as a frontend developer was an enriching experience that allowed me to apply my technical skills, learn from experienced professionals, and further develop my passion for front-end development.

## PROJECTS

### Zynerd

**Front-end Developer** *May 2022 - Jan 2023*

The NEET Education Counseling website done in React.js is specifically for the NEET exam. As a front-end developer for this website, my role involved creating a user-friendly interface that enabled students to access information, resources, and counseling services. I worked closely with the design and development team to implement responsive layouts, and ensure better navigation. By leveraging my skills in HTML, CSS, JavaScript, and various front-end frameworks, I contributed to enhancing the overall user experience.

### Up M2M - Ticketing Tool

**Front-end Developer** *Jan 2023 - Mar 2023*

I worked as a frontend developer in a ticketing tool where I used React.js to create reusable UI components, manage state and data flow, handle user interactions, integrate with APIs, implement styling and UI design, and ensure the stability and reliability of the tool through testing and bug fixing.

### OrderManagement

**Front-end Developer** *Feb 2023 - Mar 2023*

I played a role in developing various screens using React.js for the project, focusing on understanding the requirements and implementing the necessary functionality to create a seamless and user-friendly interface.

### Inventory management

**Front-end Developer** *Dec 2021 - Feb 2023*

I successfully completed my college project on inventory management using PHP. I implemented various functionality such as adding new products, updating products, etc. I gained valuable experience in web development and learned the importance of efficient inventory management in various industries.

## EDUCATION

### Class-X
